

**BRAC Contracting:**  
seamless project management - superb results

Every commercial construction project can benefit from BRAC's expertise. As principle contractors with forty year's combined experience, we are uniquely placed to drive your build forward for exceptional results.

We consistently deliver skillful project management, from commercial refurbishments to delicate historical renovations and energy efficient refits. Choose BRAC as your main contractor for complete delivery, Or we can slot into an existing project plan if you need an extra helping hand.

From conception to completion your schedule is in safe hands with us. With access to a fine network of industry leading experts we have the skills at our fingertips to manage your project on time, on budget, and to superb standards.

### **Comprehensive surveying and planning for your peace of mind**

Our innovative range of energy efficient products can be tailored to suit the functionality of your building. In doing so, we often achieve solutions for planning permission where other more traditional options have been rejected.

### **Exceptional delivery to exemplary standards**

At BRAC we use only the finest tradesmen to deliver every project in record time and to your budgetary requirements. Our ethical approach to construction results in work of the highest integrity, delivered with courteous consideration to your staff or tenants.

Our respectful, exacting approach is what encourages clients to return to us for all their construction needs. They know they can rely on us to provide the highest quality results in rapid time and with stringent attention to every last detail.

### **Integrated solutions for 21st century buildings**

BRAC are not just experts in planning and construction, we are specialists in energy efficiency too. We will assess your building's green credentials from the very start of your project, developing a bespoke solution for you to save energy, preserve structural integrity, and uphold your building's aesthetic.

BRAC's expertise ensures that renewable energy is never an afterthought. By applying all our knowledge from the outset we ensure that you choose the best solar and renewable energy options for your building. You will reap the rewards for years to come through government approved credit schemes for energy efficiency and generation.
